Odoo Hackathon Participant Document

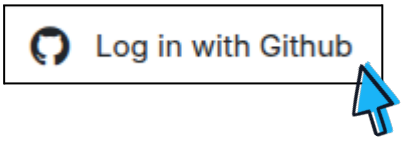
Welcome to Odoo Hackathon!

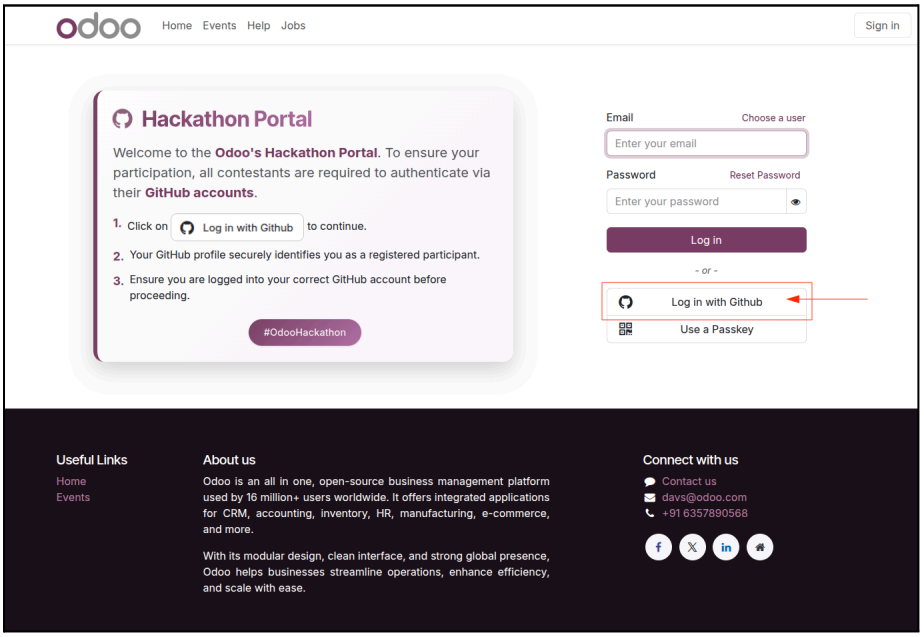
Once the team leader has initiated the team registration, team members along with team leader must follow the steps below to confirm their team participation and view their hackathon details.

- Open the **Hackathon portal** link shared with you.

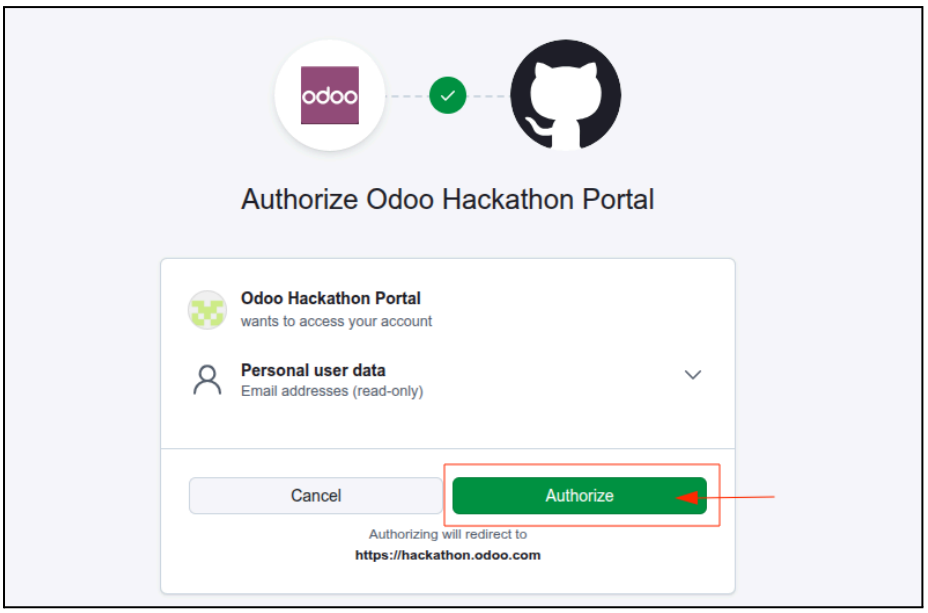
  hackathon.odoo.com

- Click on the option

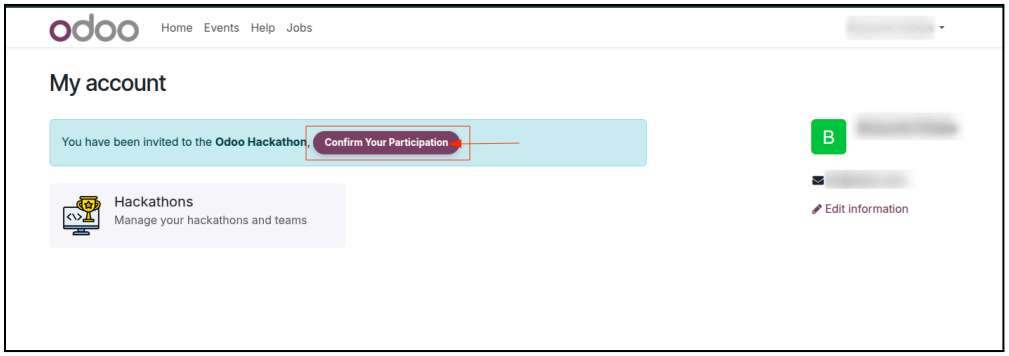




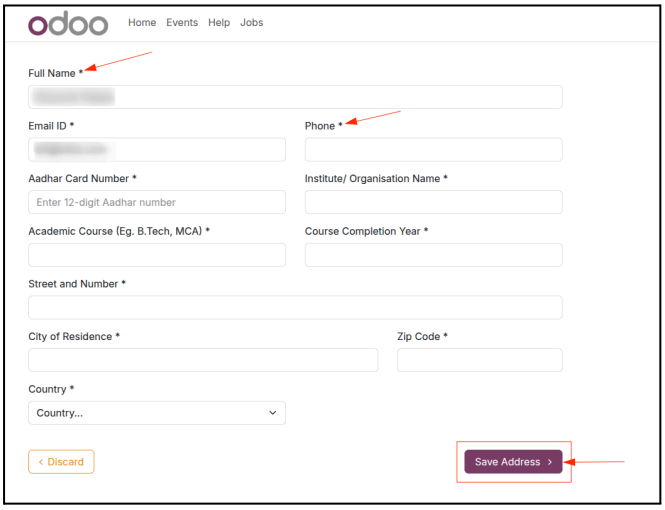
- **Authorize** the login if GitHub asks for permission.



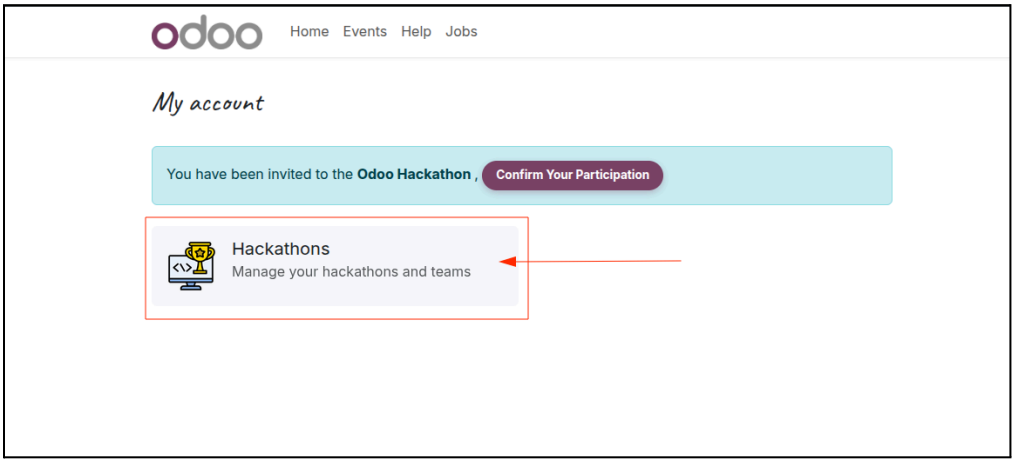
- After successful login you will be redirected to the **hackathon portal.**
- Once you have logged into the portal, you will see a link prompting you to complete your required information.
- Click on "**Confirm Your Participation**" to open the form.



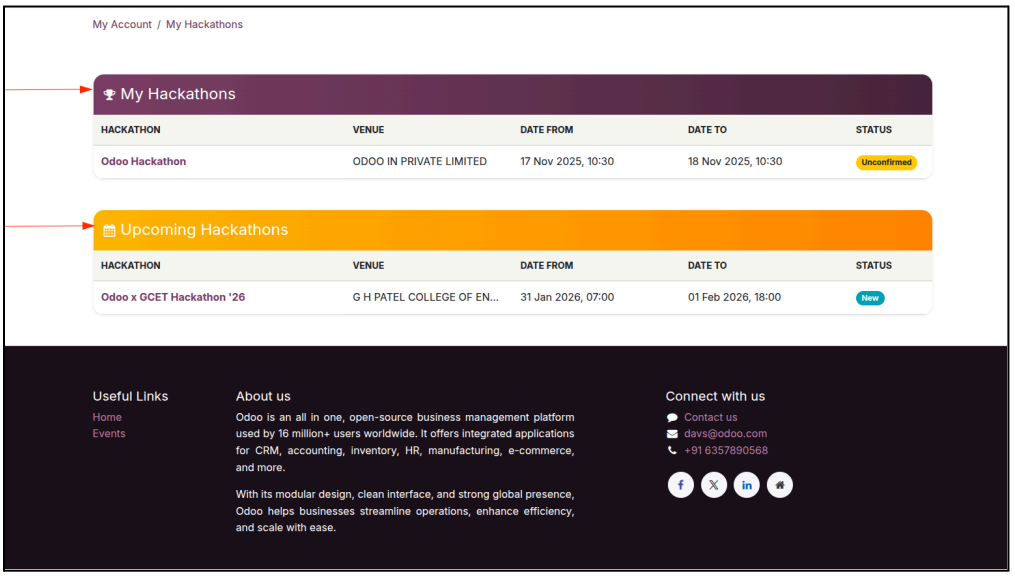
- In the form, enter all the mandatory details – these fields are marked with an **asterisk (*)** beside them.
- After filling in the required information, click "**Save Address**".



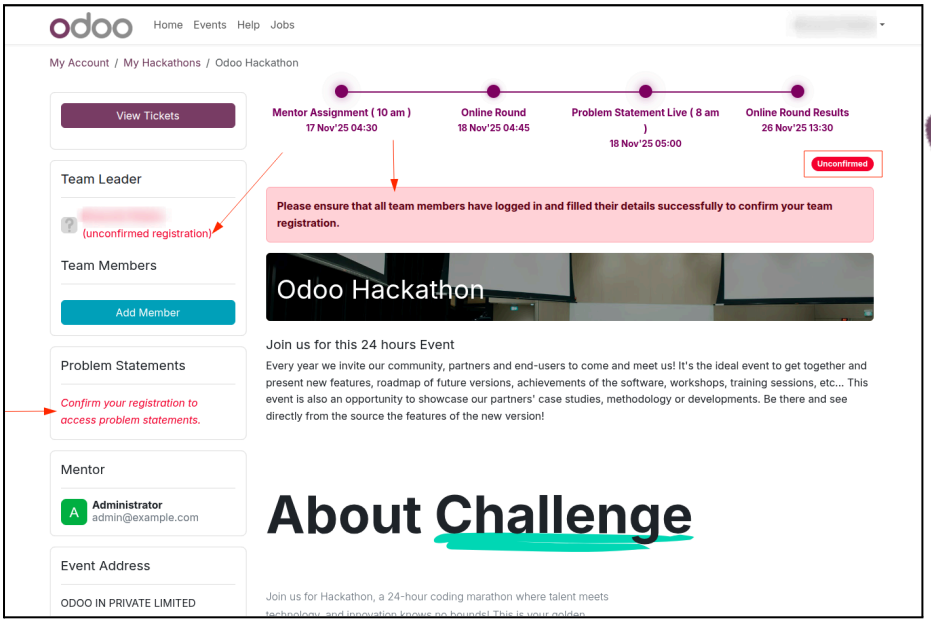
- After you successfully save your details, you will be redirected back to **My Account**. Next, navigate to the **Hackathons** tab:



- Under **My Hackathons**, you will see the details of the hackathons you are registered in.
- Under **Upcoming Hackathons** you can explore future hackathons .

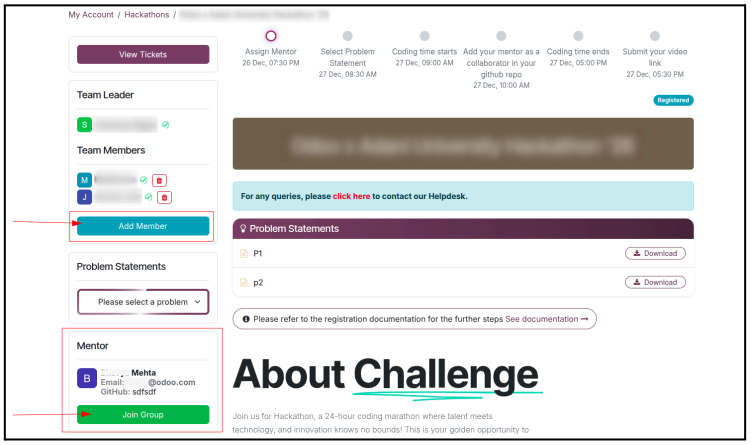


- If any team member's details are **unconfirmed**, you'll be prompted to complete them to confirm your team registration.

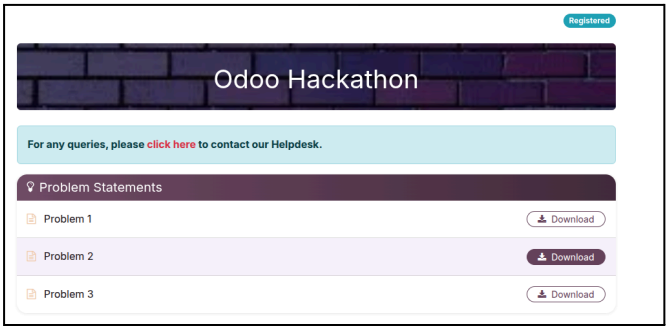


- Please follow the timeline strictly as shown in the **milestone section.**

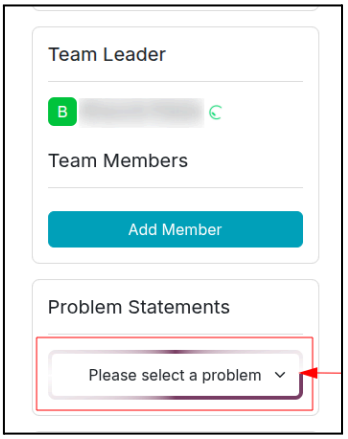
- On the Hackathon Details page,
  1. Only Team Leader can click on "Add Member" to add new members.
  2. Team leader can also delete an existing member of they want.
  3. The team can also view the Mentor assigned to them for the hackathon. Add mentor's Github id as collaborator in your repository. Please join the discord server by clicking on Join Group before the virtual round starts for real time updates.



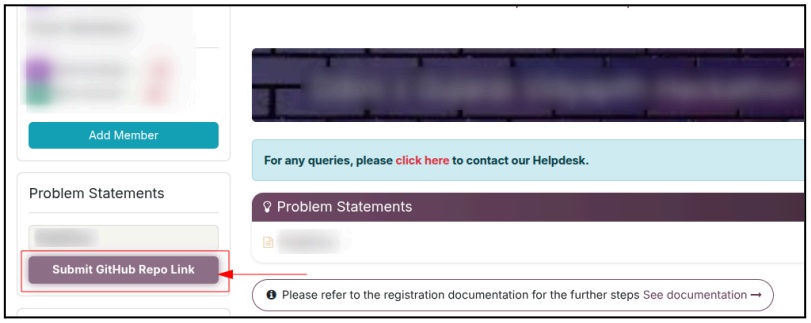
- Once the problem statement(can be one or more than one based on the round) is announced, they will be visible to you on the details page. You can download the attached document to view the problem statement in detail.



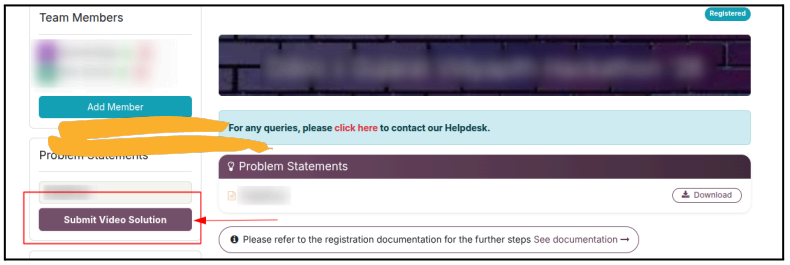
- Only the **Team Leader** can select a problem statement from the **'Problem Statement'** dropdown. Once confirmed, it cannot be changed.



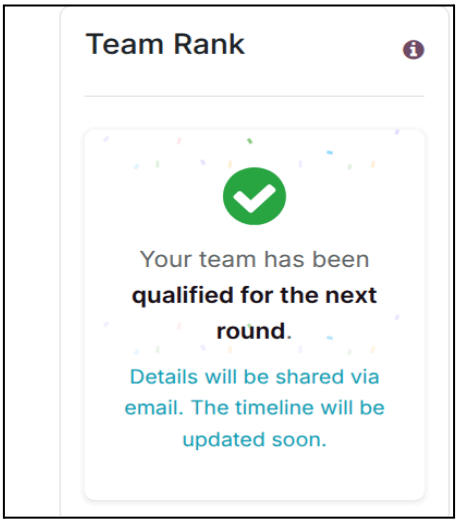
- The Team Leader has to submit their Github Repo link using the **"Submit Github Repo Link"** button.(Kindly make sure to that you have your code in a **single branch** of the repository only)



- The Team Leader can submit the team's solution video using the **"Submit Video Solution"** button.



- **Results** will be announced according to the mentioned **Date and Time** as given in the event details section on the **event page.**
- All the team members will be able to see their **team rank or virtual round result** in the "**Team Rank**" section once the result is announced on the same page where you have submitted your problem statement.



- For any queries related to the hackathon, please submit them through the "**Hackathon Assistance**" page in the Helpdesk section.

Thank You!
